

Session 1: Incorporating Wildlife Practices into Managed Timberlands (1/16/18)

- Introduction and basic principles of wildlife management (Cory Heaton – 0.5hr)
- Sun from canopy to floor (TJ Savereno – 1hr)
- Cost share programs for the wildlife manager (Susan Sullivan – 1 hr)
- Economics of implementing wildlife practices (Bernt Nelson – 0.5hr)

Session 2: Wildlife Management in Non-Commercial Timberlands (1/23/18)

- Upland & bottomland hardwood management (Greg Yarrow – 1 hr)
- Old fields and grassland management (Cory Heaton – 1hr)
- Native vegetation restoration and management (TJ Savereno – 1hr)

Session 3: The Role of Disturbance in Wildlife Habitat Management (1/30/18)

- Disturbance as a wildlife management tool (Mike Hook – 1hr)
- Prescribed burning: legalities, safety and techniques (Ryan Bean – 1 hr)
- Managing invasive species (Mallory Dailey-1hr)

Session 4: Wildlife Plantings: The Complete Story (2/6/18)

- Influence of pH and soil fertility on forage quality and quantity (Ryan Bean – 0.5hr)
- Wildlife plantings: species selection and crop management (Marion Barnes -1.5hr)
- Weed control in wildlife plantings (Mike Marshall 0.5 hr)
- Native plants for wildlife (Mallory Dailey – 0.5hr)

Session 5: Management of Aquatic Resources (2/13/18)

- Isolated wetlands: vernal pools and ephemeral wetlands (Kyle Barret – 1hr)
- Riparian management: Farm bill practices and BMPs (? – 1hr)
- Pond management (Cory Heaton – 1hr)

Session 6: Management of Predators and Destructive Wildlife (2/20/18)

- Impacts of predator management on wildlife populations (? – 1hr)
- Management techniques for feral hogs (Noel Myers – 1 hr)
- Management techniques for beaver (Jay Butfiloski – 1hr)

Session 7: Estate and Financial Considerations for the Forest Landowner (2/27/18)

- Estate planning for landowners: keeping the forests and the trees (Ken Windgate – 1.5hr)
- Timber taxation considerations for the forested land owner (Adam Kantrovich – 1.5hr)
