

Chart 1: Indicates the progression of attendance for each workshop topic as continued marketing strategies have been implemented.

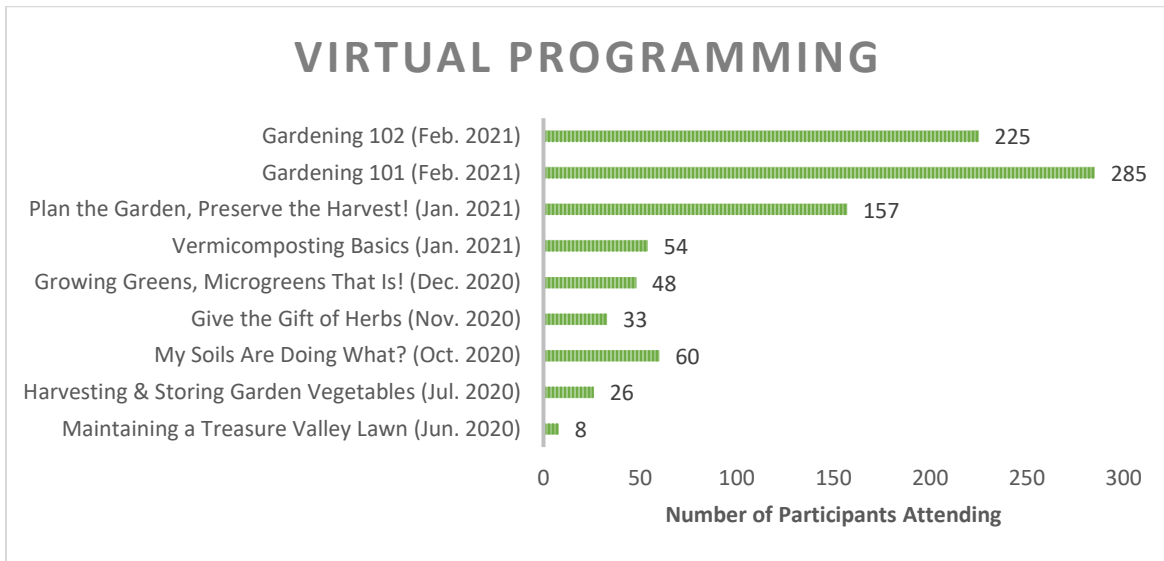

Table 1: The most significant mean score increases for understanding from the evaluation outcomes.

| Level of participants' understanding. Maximum value of 5. |                   |                    |                        |
|---|-------------------|--------------------|------------------------|
| Topic   | Mean Pre-Workshop | Mean Post-Workshop | Increase in Mean Score |
| Interplanting Production System                           | 2.21              | 3.34               | 1.13                   |
| Interplanting Production System                           | 2.21              | 3.34               | 1.13                   |
| Victory Garden Production System                          | 2.14              | 3.21               | 1.07                   |
| Vertical Garden Production System                         | 2.38              | 3.38               | 1                      |
| Succession Planting Production System                     | 2.52              | 3.45               | 0.93                   |
| Layout of the garden using spacing guides                 | 2.52              | 3.45               | 0.93                   |

Table 2: The most significant mean score increases for understanding from the evaluation outcomes.

| Level of participants' confidence. Maximum value of 5 |                   |                    |                        |
|---|-------------------|--------------------|------------------------|
| Topic   | Mean Pre-Workshop | Mean Post-Workshop | Increase in Mean Score |
| Family Garden and Preservation Assessment             | 2.28              | 3.4                | 1.12                   |
| Interplanting Production System                       | 2.4               | 3.4                | 1                      |
| Interplanting Production System                       | 2.4               | 3.4                | 1                      |
| Succession Planting Production System                 | 2.56              | 3.56               | 1                      |
| Layout of the garden using spacing guides             | 2.64              | 3.64               | 1                      |
| Planting dates based on USDA Hardiness Zone           | 2.96              | 3.96               | 1                      |
