Congratulations to Columbia County grower Ronald Norris who purchased a no-till drill through the Stetson Sustainable Farming Fund. The equipment will help him plant cover crops, efficiently apply fertilizer, and conserve soil resources.

A productive morning spent breaking in and calibrating grower Ronald Norris' new no-till drill. A winter cover crop mix of rye, oat, triticale, and ryegrass made it into the ground just before the rain! Many thanks to Joel Love @nfrec_sv and Jay Skillman @HarrellsLLC.
