# President's Corner

Ellen and I hope that you and your families had a Merry Christmas and wish you all a productive, happy, and healthy New Year. As I write this, we have 17-30 inches of snow on the ground in Pennsylvania. As we move from one day and one week to the next, I know everyone is getting a bit exhausted with various changing rules and regulations and more virtual meetings. We hope you can keep active and productive each day as we close out the Holiday season and start a new year. In the new year, we encourage you to visit across the country, visit with the NACAA Agents you know and try to network together.

The Extension Program Council chairs and committees have set up some upcoming opportunities for you to do that in 2021. The three council chairs along with the Vice President have developed an upcoming bi-monthly professional development session for all members, with the goal of developing connections of NACAA members across the country. This is an opportunity for all NACAA members to have professional development throughout the year.

Even with all the changes in 2020, this is a great time to remember all the wonderful things you did in your professional life last year. Many of you have new and creative virtual meetings and video/ zoom projects. It is time to share some of these ideas and achievements with your colleagues. This issue of The County Agent Magazine is filled with all the information that you need to submit your abstract describing your

wonderful work. I encourage you to apply for presentations and posters to share your contribution to the variety of outstanding professional development and professional improvement opportunities offered at the AM/PIC. The national extension directors and ANR leadership have thanked NACAA for providing these opportunities to their extension employees to be able to present to a national audience. The NACAA Committee Chairs and Regional Vice Chairs have been contacting your state chairs or president to get this information out to you.

In the following pages, you will also find many opportunities to apply for awards and be recognized by your peers for the great extension programming that you are doing in in your home state. Please be mindful of the March 15th deadline and the requirements of each award and contact the appropriate Committee Regional Vice Chairs and Chairs if you have any questions. As you complete your awards applications, please remember that all DSA, AA, National Award winners, and National Award finalists must register for the AM/ PIC and attend the designated ceremony to receive their award.

Later in this issue of The County Agent magazine you will find a listing of the open Committee Chair and Vice-Chair positions for

2021 – 2023. This is an opportunity for members to expand and share their leadership skills by applying for committee positions that are open. Committees are the backbone of NACAA and provide the mechanism which enables the association to achieve its mission of furthering the professional improvement of all members.

NACAA depends on the leadership and commitment of its hardworking members to fill these leadership positions. Becoming active in the NACAA committee structure will reward you in terms of both professional and personal growth. Take the time to consider potential leadership positions on a national level. Becoming involved in committees is a great way to expand your leadership skills and to assist your fellow members to be more involved along with you. If you are interested in finding out what committee positions are available this year, please check the last page of this issue and apply online.

For more information on each committee feel free to reach out to your state leadership and/or you can read about the committees on the NACAA website under the Leadership-committee -handbook section.

Note that NACAA values the service of Committee Chairs and Vice Chairs and incentivizes service in these positions by underwriting committee chairs expenses to attend the AM/PIC including travel, lodging, meals, registration fee, and pays the Registration Fee for Committee Vice Chairs to attend the annual meeting.

The Joint Council of Extension Professionals (JCEP) Leadership Virtual Extension Leadership Conference is fast approaching. JCEP has also been affected by the same issues of 2020 and they have also adapted to virtual experiences. This conference is open to all members of each of the extension professional associations. The JCEP committee has changed up the conference to be virtual and has a great presentation line up. The ELC conference will be over three days and we will also be using the Whova App. We will feature posters and concurrent

presentations from our peers. This year's conference will be held on February 10-11-12, 2021. Registration information can be found on the JCEP website ([www.jcep.org](http://www.jcep.org)). Look for our NACAA Association time for the afternoon on Friday, February 12th from 2:00-4:15pm EST.

Look for other JCEP opportunities that you can present virtually or in the poster sessions. Another opportunity for recognition is the JCEP Creative Excellence Award One award of \$250 will be presented to an extension professional from each of the JCEP organizations, including NACAA. This award recognizes those individuals or small teams and their innovative approach in addressing emerging or existing issues in exceptionally creative or novel ways that get results, and that others want to emulate.

Looking forward to the 2021 AM/PIC in Philadelphia, we have been working hard with the North East agents to put together a memorable experience. The board has been monitoring the feedback of the past year and the constantly changing situation across the country. The Board and Council Chairs are working hard to maintain the amount and quality of professional improvement opportunities available at the annual meeting and we are also planning on streamlining some aspects of the meeting as needed.

In closing, let me wish each of you a happy, healthy, and prosperous New Year. I am grateful of having been given the privilege to serve as President of this great organization and I assure you that my door is always open to your ideas, thoughts and criticisms on things that we can do to make the association better and serve our members. Sometimes it is hard to remember all the items we are thankful for, "Great opportunities to work in agriculture and work with great fellow county agents is one of the blessings I think about every day!" I look forward to seeing everyone soon.

## How the Great Influenza Pandemic of 1918 Changed My Life

By: *Herb Reed*  
Senior Agent Emeritus  
University of Maryland  
Extension

On October 24, 1918 the following obituary appeared in the Wakarusa Tribune in Elkhart County, Indiana.

**Mrs. Wilson Reed, aged 28 years, died Tuesday night of influenza, at her home in Harrison Township. She was the daughter of Isaac Martin and wife, both deceased. She leaves a husband and several small children.**

**The funeral, which will be private, will be held Friday. Burial at Yellow Creek.**

So much is said in these few words. October 24, 1918 was a Thursday. This means that Elizabeth Martin Reed, my paternal grandfather's first wife, died on October 22, 1918. This was right in the middle of the deadly second wave of the Great Influenza Pandemic (Spanish Flu) of 1918. Note that the funeral was private. My grandfather Wilson Reed was Old Order Mennonite (horse and buggy similar to Amish) and to have a private funeral was rare. Funerals were important times for large extended families to gather. When my father died

in 1968, several van loads of his Old Order Mennonite cousins from Ontario showed up at the funeral in Pennsylvania. Clearly in October 1918 large gatherings were being discouraged in rural Elkhart County Indiana in an attempt to control the spread of the disease. Today we call this "social distancing." A family history states that "the casket was passed through a window of the home and the service was held outside."

The conventional wisdom is that the 1918 flu pandemic began on March 1918 with the case of Albert Gitchell, an army cook at Camp Funston in Kansas. However a doctor in Haskell County KS had reported some cases in January. Over 500 men at Camp Funston got sick and by March 11 the virus had reached Queens, NY. Camp Funston was a major training center for the American Expeditionary Forces which fought in World War I. The disease quickly spread throughout the U.S. Army and to Europe with the deployment. And here we get to the nomenclature of this pandemic. This disease appeared to have originated in North America (although today there is some dispute about that). So why is it commonly known as the Spanish Flu? The reason appears to be that Spain was neutral in WWI. All of the combatants, including the United States, censored information about diseases attacking troops and civilians. Spanish newspapers reported freely on the disease and on the illness of King Alfonso XIII. The publicity resulted in the association with of the influenza pandemic with Spain. (Some Ag Agents may recognize a similar situation in "Dutch Elm Disease," which did not originate in the Netherlands but was in fact first identified

by Dutch plant pathologists). The pandemic spread through all of the armies involved in WWI and back to their civilian populations. However this first wave subsided around July 1918 and had about the same impact as previous flu epidemics – that is, only bringing death to the sick, very young and very old, with moderate impacts on children and young adults.

*Wilson and Susannah Reed Family ca. 1956  
L-R Front Row - Emma, Susannah, Wilson, George  
Back Row - Magdalena, Daniel, Irvin, Aaron, Martin, Esther  
George, Emma and Martin were born of Elizabeth Martin  
Daniel was my father.*

That all changed in the latter part of August 1918 with the second wave, which first impacted military sites near Boston. By October it had spread to all of the United States and most of the world with devastating effect. October 1918 was the month with the highest fatality rate of the whole pandemic. In the United States, 292,000 deaths (out of a population of about 100 million) were reported between September–December 1918. The second wave was especially deadly in India, with an estimated 12.5–20 million deaths in the last quarter of 1918 alone. And unlike most other flu epidemics, young adults were hit particularly hard.

To his credit, Wilson Reed did not allow this devastating loss to keep him from moving on with his life. The fact that he was left with three young children, 3, 5, and 6 years old, likely was an inspiration. At first his deceased wife's sister assisted with the care of the children. But she did not have the mothering skills of Elizabeth Martin and the children chafed under her strict discipline. Wilson would often have to comfort them

when he came home from work. He soon went looking for a new wife and found Susannah Brubacher from Brutus Michigan (Emmet County). They were married in November 1919. Susannah was just 20 years old and Wilson was 28. Soon after the marriage Wilson sold his farm in Indiana and moved to Brutus MI. My father was born there in November 1920.

The Great Influenza Pandemic of 1918 was devastating for the United States and much of the world. But was it for me? I I would not be here if my grandfather's first wife hadn't died. Make of that what you will.

**All program entries must be in possession of respective committee state chair by March 15, 2021, except where noted. Applying earlier is encouraged.**

Current members of the NACAA Board may **not** enter the professional improvement programs with the exceptions of DSA and AA. ## **Attendance Requirement**

NACAA policy states that all Achievement Award (AA), Distinguished Service Award (DSA), National Finalists, National Winners, and Poster Session Presenters must register for the NACAA Annual Meeting and Professional Improvement Conference and attend the designated ceremony to receive their award (minimum 1 day registration fee). Decisions on requests for non-attendance and excused absences will be made on a case by case basis by consultation among the respective National Committee Chair, in concert with the National Committee Vice Chairs and the NACAA Vice President. Excuses may be granted to AA, DSA, National Finalists, and National Winners for extreme personal or family illness; circumstances which would seriously jeopardize their job; or similar extreme situations. The intent of this requirement is that awards are inclusive of cash, plaques, and certificates.

In the event a national winner does not receive an excused absence from attending the AM/PIC, the national winner's award will be presented to the next ranking National Finalist who attends the AM/PIC. If none of the National Finalists attend the AM/PIC, a national winner award will not be presented.

In the event a national finalist does not receive an excused absence from attending the AM/PIC, the national finalist award will be forfeited. If a national finalist award is forfeited, there will be no replacement from lower ranking entries.

Note: The National Winner who is asked to make a program presentation at the AM/PIC is eligible for a reimbursement of the AM/PIC registration fee. In case of a team presentation, the value will equal one registration.

## JCEP Creative Excellence Award

### DESCRIPTION

Often, the most creative and innovative ideas - the ones that advance the science and art of Cooperative Extension - come not from committees, but rather from individuals or small teams who see something at first that the rest of us don't. Through their insight, passion and persistence, their "wild" ideas gain acceptance, enabling all of us to excel. This award recognizes those individuals or small teams and their unique contributions - whether they are early in their Extension careers, mid-career, or late career.

For the purposes of this award, innovation is an approach to emerging issues or addressing existing issues in exceptionally creative or novel ways that get results, and that others want to emulate.

### ELIGIBILITY

Candidates must be a member of NACAA in good standing.

### JUDGING

NACAA Council Chairs along with the NACAA Vice President will review all applicants and present to the board of directors - one individual or small team (2-5 members) for recognition as the overall recipient of the JCEP Creative Excellence Award. Each individual nominee or team will receive recognition and a \$250 stipend (1 award) to be presented at the NACAA AM/PIC.

All of the honorees' innovative and creative achievements will be highlighted on the JCEP website and in JCEP communications. Judging will be based on the following criteria:

- 1) Do the nominee's efforts address emerging issues or current issues in unique ways?
- 2) Are the innovative efforts new, that is, not widely conducted previously in the state or region?
- 3) Does the nominee exhibit a pattern of innovative and creative efforts extending beyond a single program or product?
- 4) Are the innovative and creative efforts highlighted in the nomination leading to change in individuals and communities?
- 5) Are other Extension or outreach professionals adopting the innovative and creative approaches developed by the nominee?

## ALL ABSTRACTS SUBMITTED FOR CONSIDERATION - MAXIMUM WORD COUNT 350

Sample FORMAT FOR All NACAA ABSTRACTS. The abstract is written as a single paragraph.

### Search for Excellence in Livestock Production

#### TURNING A PROFIT WITH BEEF CATTLE

Covington, C.\*<sup>1</sup>

<sup>1</sup> Area Livestock Agent, Mississippi State University, Port Gibson, MS, 39150

The purpose of this educational program was to increase the individual profitability of the cow/calf producers in Mississippi. I accomplished this task by working with beef producers in identifying their effective production practices, diagnosing their inefficiencies in production, and prescribing corrective measures to ensure their maximum profitability through the optimum utilization of their farm resources. In order to achieve the overall goal of profitability, several smaller goals needed to be met. I utilized multiple program activities and teaching methods, recognizing that different producers learn in different ways. These educational activities included 129 newsletter/circular letters, 131 newspaper articles, and 135 group activities that reached 1,725 producers over the past three years. The producers participating in the program indicated the value of the information they gained from these educational activities in the form of savings or increased profits to their operations at over \$7.5 million. However, the increase in knowledge by these producers is a much more valuable indicator of its true success and effectiveness.

## Tips for working on large projects

Large projects that require design and planning should be discussed with affected utility operators before digging occurs to help mitigate potential utility impacts. Submit the project plan by calling 811 or visiting your state's One Call center website to complete a digital locate ticket. This initiates the process to inform you of public utilities in the dig area.

When engaging in terrain modifications, adding or removing soil near underground utilities can change utility depth of cover. Work with affected utility operators to make sure depth of cover remains the same. When modifying terrain, the end of proposed excavation should maintain a minimum clearance of at least 25' when parallel to a utility.
