

Form a Partnership with NACAA

The National Association of County Agricultural Agents is a professional organization that represents Land Grant University Extension Agriculture Educators across the United States. It consists of 5700 members, including 3200+ active members and 2500 life members.

NACAA's mission is to help members excel in Extension programming through high standards of professional performance. NACAA encourages and promotes: high standards of professionalism, scholarships for members to continue their education, recognition for outstanding professional achievements, as well as workshops and seminars on current agricultural issues. To facilitate the activities associated with the mission, NACAA conducts an Annual Meeting/Professional Improvement Conference (AM/PIC) each year.

At the national level we partner with corporations and organizations who assist us in offering educational professional improvement programs for agents. The national President-Elect, national committee chair and/or Executive Director are available to meet with national sponsors to best find the program that will suit your needs and those of NACAA.

Presentation Opportunities

"Trade Talk" OR NACAA 365 Seminar

In an effort to provide more visibility to our donors/sponsors, NACAA offers during the NACAA Annual Meeting and Professional Improvement Conference a "Trade Talk" opportunity.

We've created this session to support NACAA members of the latest trends happening in the marketplace - and to give our donors/sponsors and opportunity to have more exposure to NACAA members.

NACAA will have three concurrent breakout sessions to be held during the Monday morning General Session on topics areas such as Technology, Animal Science, Crop Science, Horticulture/Turfgrass, and Natural Resources. Each of these sessions will emphasize new trends in Agriculture.

Donors at the \$5,000+ level will be allowed to speak for 15 minutes on the latest research-based initiatives that their company is currently promoting.

NACAA members will voluntarily attend these concurrent sessions. The number of concurrent sessions will be determined upon the interest of our supporting partners/donors.

Take advantage of this opportunity - it will create great exposure for your business by getting the word out about your product/service to a very influential group of Extension Educators.

If you are unable to attend the NACAA AM/PIC and participate in the "Trade Talk" session - Donors at this level may present a 30-45 minute Webinar within our NACAA 365 Zoom Platform (hosted by NACAA). This is a monthly webinar scheduled by NACAA to offer insight into current or trending agricultural related subject matter. All webinars are recorded and will be posted on the NACAA YouTube channel for viewing anytime by our members.
